I. PROJECT DESCRIPTION

Project No.: A135-08017

Project Name: GMIA Runway 1L-19R Pavement Rehabilitation - 2012

Project Location: General Mitchell International Airport

Description of Project:

The base bid shall consist of replacement of asphalt pavement with 16-inch PCC pavement on a portion of Runway 1L-19R and related electrical work. The existing asphalt depth varies from approximately 13 inches to 23 inches across the site. This work consists of construction within the Runway 7R-25L Runway Safety Area (RSA) and work outside the RSA. Work inside the RSA shall be accomplished on designated closure nights on weekends only with limited hours for work. Work outside the RSA south of Runway 7R-25L may be accomplished during the week with normal work hours. Work outside the RSA north of Runway 7R-25L shall be accomplished during night weekend closures. This work shall be accomplished Sundays between 11:30 AM and 6:00AM and Mondays between 12:00 AM and 5:00 AM.

Alternate Bid 2 consists of electrical work to be accomplished in 2012 as shown on the plans. A portion of this work is outside the runway safety areas and may be worked on during normal hours and days with the prior approval of the Engineer. Work within the safety areas of this alternate shall be accomplished within the same hours and dates set forth in the base bid.

Alternate Bid 4 consists of the 2012 work of 10" milling and asphalt overlay of the intersection of the two runways as shown on the plans. This work must take place with the same work time and day constraints as the base bid paving work. Work shall be accomplished prior to the placement of PCC pavement at the edge of this area.
